Experience

Full stack web development intern   **March2025-July2025**

- Built responsive web apps using HTML, CSS, JavaScript, React, Node.js and MongoDB. Worked on both frontend and backend, created REST APIs, managed databases, and deployed projects using GitHub and Vercel.
- Key Project: Developed an interactive 3D Solar System website with smooth animations, real-time planetary rotation, and responsive design. Deployed on Vercel for public access.

Projects

Solor System   **April.2025-Jan.2025**
Frontend Developer   *Remote*

• Developed an interactive **3D** Solar System website using **HTML**, **CSS**, and **JavaScript, Figma**

• Implemented **smooth animations** and **responsive design** for **cross-device compatibility**.

• Showcases planetary orbits, real-time rotation, and informative labels.

• Deployed on Vercel for fast, serverless performance and public accessibility.

Gastronomic - resturent website   **May 2025**

• Created a personal resume website using **HTML**, **CSS**, and **JavaScript** for professional branding.

• Designed a **clean**, **responsive layout** to showcase skills, education, and projects effectively.

• Integrated navigation, download options, and **smooth scrolling** for better user experience.

Education

Sparsh college from brahmapur

                                                                         2022 – 2026

BCA - *Bachelor of Computer Applications*

Technical Skills

Programming Languages: C++, JavaScript, C, Java

Frontend: JavaScript, HTML, CSS, TailwindCSS, Bootstrap

Database: MySQL

Tools: Git, Github, Vercel, Vscode, Figma, Canva, Photoshop

Achievements

Developed my personal portfolio website using **Framer Motion**, **GSAP**, and **Tailwind CSS**. Added smooth **animations**, scroll effects, responsive design, image and video galleries, **3D tilt**, and custom loading screens.

• Designed posters and thumbnails using **Canva** and **Photoshop**, focusing on clean visuals and impact.

Leadership & Activities

• **WebDeveloperCommitteeHead**-LedthewebdevelopmentteamatSPARKClub,managedmultiple

projects, built various web applications, and gained experience in **teamwork** and **collaborative development**.
